Professional Summary

Motivated second-year Information Technology and Systems student with hands-on experience in networking, web development, and security research. Skilled in designing secure, scalable, and cost-effective network infrastructures, building web applications, and developing security-oriented software. Adept at problem-solving and eager to contribute technical expertise to dynamic and innovative teams.

Technical Skills

Programming Languages:

- JavaScript, Java, Python, HTML, CSS

Networking:

- Network Security, Cisco Packet Tracer, Network Design, Routing & Switching, VLAN Configuration

Tools & Other Skills:

- Database Management, Git & GitHub (Version Control), Command Line Interface (CLI), Web Development

Projects

Networking Rack Design & Implementation (Cisco Packet Tracer)

- Designed and simulated a structured network rack setup using Cisco Packet Tracer.
- Implemented subnetting, IP addressing, VLAN configuration, static/dynamic routing, and device integration.
- Emphasized secure, scalable, and cost-effective network design principles.

Pharmacy Management System

- Developed a desktop application managing pharmacy operations using Python (Tkinter for GUI) and SQLite.
- Features include medicine inventory control, customer record keeping, and sales tracking.

Version Control Experience (Git & GitHub)

- Utilized Git for version control and GitHub for collaborative project management.
- Managed branches, tracked code changes, and maintained clean workflows across multiple projects.

Clinic Database System

- Designed and implemented a relational database system for clinic management using MySQL and PHP.
- Managed patient records, appointments, doctor assignments, and medical history with a normalized database structure.

Education

BSc in Information Technology and Systems

[Your University Name]

Expected Graduation: [2027] (Currently in 2nd Year)

About Me

Passionate about building secure and efficient networks, websites, and software. Enjoys collaborating on challenging projects and continuously learning new technologies. Open to new opportunities and eager to contribute to meaningful projects.
